## ONCOLOGY (CANCER MANAGEMENT)

It is important that prior to commencing active treatment for cancer, you are registered on the Oncology Disease Management Programme (See Summary of Benefits for applicable benefits and limits per your chosen option).

### Who needs to register?

Beneficiaries diagnosed with a positive malignant histology that requires some form of chemotherapy, radiotherapy, hormonal therapy and/or supportive therapy.

### How to register

1. After you have been diagnosed with cancer your Oncologist must fax a treatment plan and the histology results to the Scheme's Oncology Department on **086 762 4050**.
2. Once received by Topmed, the Oncology Disease Manager will review the request in accordance with recognised treatment protocols and guidelines for oncology treatment based on clinical appropriateness, evidence-based medicine and the chosen benefit option. If appropriate, an authorisation is generated and a response is provided to the treating Oncologist, who in turn will notify the member.
3. Additional information may be required from the Oncologist, such as test results, in order to complete the registration process.

In the event of any changes, renewals and amendments to your treatment plan, please ensure that either you or your treating doctor advise the Case Manager to ensure that your authorisation is updated accordingly subject to approval and available limits.

## DESIGNATED SERVICE PROVIDER (DSP) NETWORKS

A Designated Service Provider (DSP) is a healthcare provider (doctor, pharmacist, hospital, etc) that has been chosen by your Scheme for the diagnosis, treatment or care of PMB conditions. A network is a defined group of providers (hospital groups, general practitioners, specialists, pharmacies, etc).

When a Scheme enters into a DSP Network agreement with providers, the providers commit to an agreed tariff and /or agree to the provision of services delivered according to scheme protocols and formularies. The implementation of these networks is therefore to assist the Scheme in managing the costs of providing benefits, particularly within the context of managing PMBs, given the lack of any pricing guidelines in respect of provider fees.

Treatment of PMB conditions at a DSP will be covered in full by Topmed when delivered according to the Scheme protocols and formularies. If you choose not to use the DSP selected by Topmed, you may have to pay a portion of the bill as a co-payment. This could either be a percentage co-payment or the difference between the DSP's tariff and that charged by the provider you went to.

Topmed utilises DSP Networks in various ways, depending on your option and the particular benefit structure.

### Pharmacy Network

Topmed currently has over a 1,000 pharmacies that form part of the Pharmacy Network which includes the major retail pharmacy groups (Clicks and Dischem), as well as various courier pharmacies such as Pharmacy Direct and Clicks DirectMedicines.

Should you obtain your PMB medication from a non-network provider you will receive a 70% benefit. If you are unsure of whether your pharmacy is on the network you may check by downloading the Pharmacy Network List from our website, [www.topmed.co.za](http://www.topmed.co.za). If your pharmacy is not on the network and they would like to join they may contact Mediscor (who manage the network on our behalf), and provided that they are willing to agree to the contractual terms, they may be added to our network.

### Specialist Network

Topmed has a Specialist Network across all options in respect of in-hospital PMB benefits as well as CDL treatment plan benefits. Topmed will always pay your in-hospital costs at the Topmed tariff applicable to your option (for eg. 200% of TT if you're on the Executive Option). However, should you choose to use a provider that is not part of the DSP network you may be liable to pay the difference between the Topmed Tariff and what your provider charges.

To assist you in this process, you will be advised upfront at the point of authorisation whether your provider is on the Network, giving you an opportunity to engage with your provider prior to being hospitalised or receiving treatment. Should you want to know whether your provider is a Network Specialist, visit our website: [www.topmed.co.za](http://www.topmed.co.za) or call Client Services on 0860 0021 58.

Please note that the networks are updated on a regular basis, so before obtaining treatment, take the time to access the information on the website as noted above.

### Hospital Network

Topmed's Hospital Network includes over 280 hospitals, sub-acute facilities and day clinics spread geographically across South Africa. The majority of these facilities are Life Healthcare or Mediclinic facilities however in certain areas, where Life Healthcare or Mediclinic do not have a facility, NHN facilities have been included. For a detailed list of the facilities included in the Hospital Network please log onto the website, [www.topmed.co.za](http://www.topmed.co.za). If you do not have access to the website, please call our Client Services department on 0860 00 21 58 and we will gladly assist you in finding the closest facility to you.

In order for your hospital account to be paid in full (at 100% of the AT), it is important to note that you must make use of a network hospital for any planned or non-emergency admissions. Planned or non-emergency admissions at hospitals outside of the network will only be at paid at 75% of the AT. To avoid unnecessary co-payments on your hospital accounts, please ensure that you confirm before being admitted whether your hospital is included in the network.

Members are required to make use of DSPs or Preferred Providers for specific benefits according to the table below. The details of the providers included in each of these networks are available on the website, [www.topmed.co.za](http://www.topmed.co.za), or by calling Client Services on 0860 00 21 58.
